# CONSULTING

IF YOU'RE NOT A PART OF THE SOLUTION,  
THERE'S GOOD MONEY TO BE MADE IN PROLONGING THE PROBLEM.

**...and this NEED**

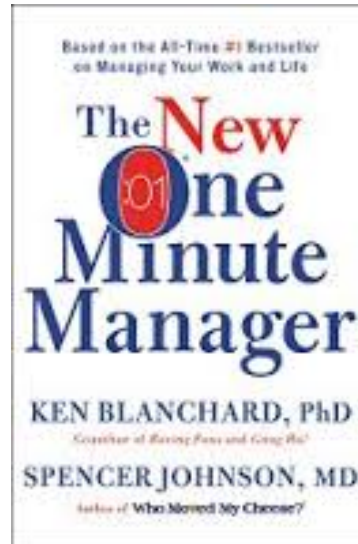

# Objectives

- 1. Have an opportunity to share personal experiences and solutions in the development of leadership competencies in an interprofessional healthcare team format**
- 2. See Objective #1**

# What is Leadership?

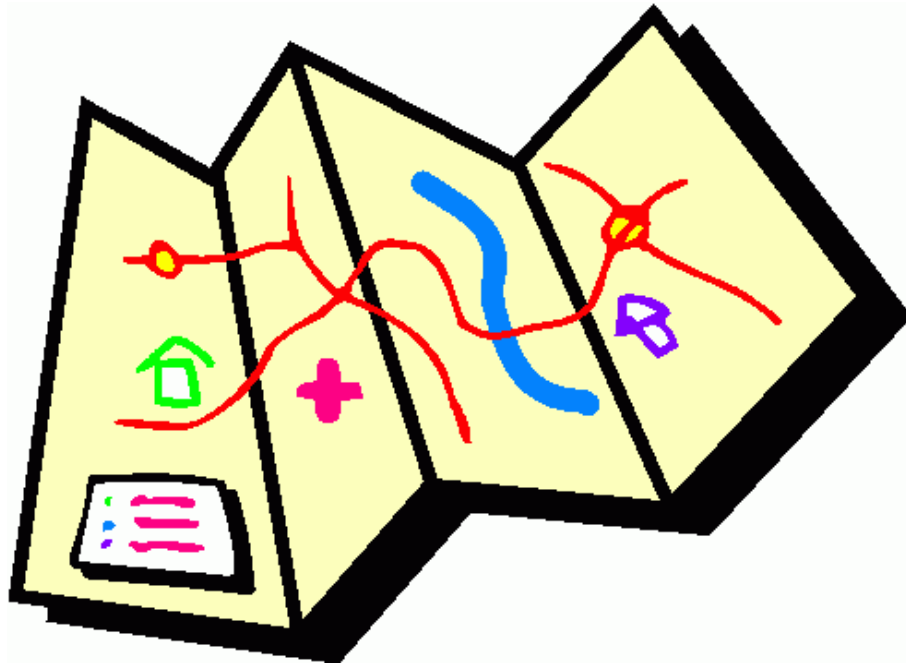

***“The capacity to **influence others** by unleashing the **potential and power of people** and organizations for the greater good.”***

**THE ROAD TRAVELLED....**

***THE CURRENT JOURNEY TO HERE...***

1. **What leadership competencies do YOU use?**
  2. **Why do you use those? How did you arrive at them? How did you gain buy-in from those that you needed buy-in from?**
  3. **How do you teach these competencies so you know they turn into behaviors?**
- 

- **Is your teaching of Leadership an Individualistic View or a Collective Competence View?**
- **How do you teach the complex problem solving so you factor in the relationships among the parts?**
- **How do you train/teach in behaviors vs content only?**
